

Daphne 'Moon Canyon'

Key Features

- ✓ Bold variegated foliage.
- ✓ Intensely scented blooms with unique re-blooming characteristics.
- ✓ Excellent tight, rounded, compact habit 2' x 2' in 4 years.

Characteristics

Genus & Species:	<i>Daphne x transatlantica</i>
Protection Status:	PPAF
USDA Zone:	USDA Zone 5. (-20°F or -28°C).
Bloom:	Profusions of tight heads of soft pink buds opening to pure white intensely scented blooms.
Bloom Time:	Early spring followed by constant succession from summer to fall.
Foliage:	Semi-evergreen, colorful variegated foliage. Bold warm yellow margin ageing to cool cream.
Habit:	Excellent tight, rounded, compact habit 2' x 2' in 4 years. (Ultimately 3' x 3').
Propagation:	Semi-ripe basal cuttings / Tissue Culture. <i>License required for propagation.</i>
Culture:	Best in full sun in acid or alkaline soil with good drainage.
Additional Comments:	Drought tolerant once established. Test result show great heat and humidity tolerance. Tolerant of pruning, best done after the spring flush of bloom, so very little flower is lost.
Uses:	Containers, garden specimen, mass landscape planting & low informal hedge

Approximate Finishing Time

1 Gallon:	12 months
2 Gallon:	24 months

Closest Variety: *D. 'Summer Ice'*

Key Differences:

- ✓ 'Moon Canyon' bold variegated foliage **vs.** fine variegated foliage.
- ✓ 'Moon Canyon' tight rounded habit **vs.** average-open habit.
- ✓ 'Moon Canyon' profusions of blooms **vs.** medium bloom number.
